

OffPeak Technologies LLC  
Tech Note - IT100

How to set compatibility in IE8 or IE9 for the [www.offpeak-solutions.com](http://www.offpeak-solutions.com) web site.

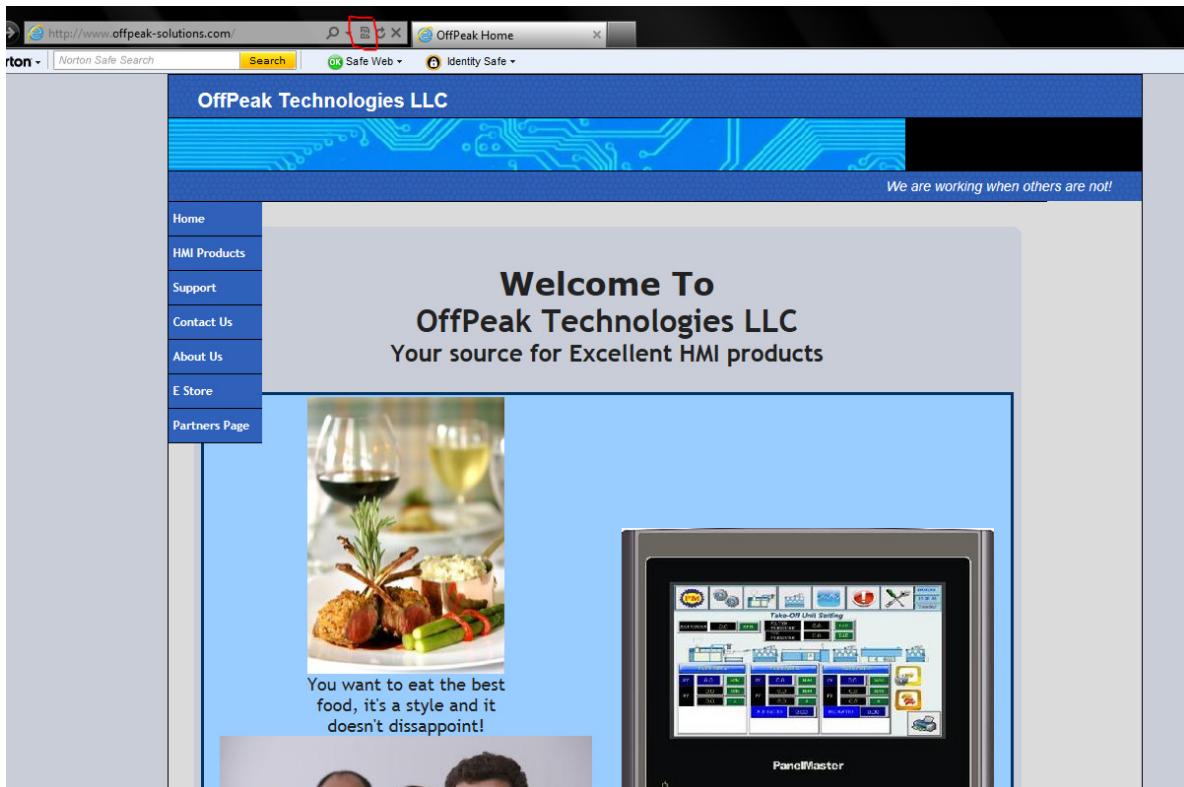

Use this document if you are trying to view our web site in IE8 or IE9 and find that menus do not function correctly or other elements of the web site do not seem correct.

Turn on Compatibility - This will work for any web site not compatible with the above listed versions of IE. If your PC is part of a network and you do not have access to this functionality, you will need to get an authorized IT person to do it for you.

Steps:

1. Using either IE8 or IE9 browse to [www.offpeak-solutions.com](http://www.offpeak-solutions.com)
2. In the tool bar, near or next to the refresh button you will see an icon as below. Press this and all should magically be working for you.

Before:

Press this -
